About Our Organization...

The Central Iowa Garden Railway Society has regular monthly meeting at which we discuss one another's current project, hobby news, and the latest products on the market.

Programs are presented at some meetings, either by one of our members, or by someone brought in from outside the organization. The programs generally cover some element of the hobby, from the history of local and other Railroads, to rolling stock to track work, to locomotive, includes electric operation, battery-powered and trains that actually run on live steam.
